Safe Harbor Disclosure and Definitions

This presentation contains forward-looking statements. The use of words such as "anticipates," "estimates," "expects," "plans" and "believes," among others, generally identify forward-looking statements. Similarly, statements herein that describe Match Group's future financial performance, prospects, strategy, outlook, objectives, plans, intentions or goals, or anticipated trends and other similar matters are also forward-looking statements. These forward-looking statements are based on management's current expectations and assumptions about future events, which are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Actual results could differ materially from those contained in these forward-looking statements for a variety of reasons, including, among others: competition, our ability to maintain user rates on our higher monetizing dating products, our ability to attract users to our dating products through cost-effective marketing and related efforts, foreign currency exchange rate fluctuations, our ability to distribute our dating products through third parties and offset related fees, the integrity and scalability of our systems and infrastructure (and those of third parties) and our ability to adapt ours to changes in a timely and cost-effective manner, our ability to protect our systems from cyberattacks and to protect personal and confidential user information, risks relating to certain of our international operations and acquisitions and certain risks relating to our relationship with IAC/InterActiveCorp, among other risks. Certain of these and other risks and uncertainties are discussed in Match Group's filings with the Securities and Exchange Commission. Other unknown or unpredictable factors that could also adversely affect our business, financial condition and results of operations may arise from time to time. In light of these risks and uncertainties, these forward-looking statements may not prove to be accurate. Accordingly, you should not place undue reliance on these forward-looking statements, which only reflect the views of Match Group management as of the date of this presentation. Match Group does not undertake to update these forward-looking statements.

This presentation includes certain non-GAAP financial measures in addition to financials presented in accordance with U.S. GAAP. These non-GAAP financial measures are in addition to, and not a substitute for or superior to, measures of financial performance prepared in accordance with U.S. GAAP. See the Appendix for a reconciliation of the non-GAAP financial measures to their most comparable GAAP measure.

This presentation contains statistical data that we obtained from third party publications, surveys and reports. Although we have not independently verified the accuracy or completeness of the data contained in these industry publications, surveys and reports, we believe the publications, surveys and reports are generally reliable, although such information is inherently subject to uncertainties and imprecise.

"Average Subscribers" is the number of Subscribers at the end of each day in the relevant measurement period divided by the number of calendar days in that period. Subscribers as of any given time represent the number of users who purchased a subscription to one of our products at that time. Users who purchase only à la carte features are not included in Subscribers. Unless otherwise noted, Subscribers refers to Average Subscribers in this presentation. "Ending Subscribers" is the number of Subscribers at the end of the relevant measurement period. "ARPU" or Average Revenue per Subscriber, is Direct Revenue from Subscribers in the relevant measurement period (whether in the form of Subscription or à la carte) divided by the Average Subscribers in such period and further divided by the number of calendar days in such period. Direct Revenue from users who are not Subscribers and have purchased only à la carte features is not included in ARPU. Direct Revenue is revenue that is received directly from end users of our products and includes both subscription and à la carte revenue. "North America" or "NA" as used in this presentation refers to the United States and Canada.
